All B.S. *Written entirely by Bob Stewart, President Ozarks' Coin Club*

Our first "Evaluation Day" was a great success!!!! Not in the way we thought, but still great. We did not have a lot of traffic, but those who came had a genuine interest in their coins and many either joined the club or came to our last meeting. We also have had some new YN's join as a result of the event. I think it would be a great idea to do this again next year but time it to be during the ANA Coin Week. The Discovery Center is interested in doing a joint event for Coin Week.

Since our last meeting we have added more lights to the Auction Area and approved the light for our new building sign.

Now for the bad news, Jim Guy has resigned as our YN Advisor effective at the end of June. Jim has been leading our YN program for about 8 years pretty much as a one man show. His efforts have made the Ozarks' Coin Club YN Program known as one of the best in the country. To say he will be missed is an understatement. We all owe Jim a debt of gratitude for his dedication to the youth of our club and hobby. Jim will lead a "Search Committee" for a new advisor. If you have ideas or would like to help, contact Jim. As one of the more important positions in the Club we may want to see if we can break the activities into 2 or 3 parts to lessen the work load on the Advisor.

I would also like to go on record as saying Jim has been a great asset to this Club as both YN Advisor and Director. He has been a great help to me and handled some unpleasant tasks for the Club during our past difficult times. I do look forward to Jim's continued membership in the Club even though it will be as a "Private Citizen".

Thanks for all you did and do Jim!!!!

Bob

Evaluation
Day

Ozarks' Coin Club Minutes April 3, 2012

Meeting called to order by President Robert Stewart. There were 38 adults and 10 youth for a **Total of forty eight (48)**. We had many visitors and some new members that joined that night. We got several new members due to our Evaluation Day.

This was election night. The slate of officers was read:
President—Bob Stewart, Vice President—Nancy Redman,
Secretary—Patti Kirk, Treasurer—OPEN,
Board Members—Ed Mayer, Bob Nicholson, Danny Johnson, and Tim Cummings. The motion was made to approve this new board. It was seconded and approved.

Bob updated us financially. He explained Truman Carter and his wish for a strong and permanent club with a focus on youth activities.

All YN's and their family's membership dues will be paid out of the Carter Trust. The March Flying Eagle stated "families with financial difficulties" would have their dues paid out of the Carter Trust, which was the old OCC policy.

All YN's were given coins at an earlier meeting and tonight they explained their coin to the club. They told the origin of the coin, the denomination, the metal content and then showed on a map their coin's country of origin.

Our club will be taking a bus to St. Charles coin show the end of July.

Coin of the Month

Chaco Culture National Historical Park Quarter

Obverse: George Washington's profile is surrounded by the inscriptions "United States of America," "Liberty," "In God We Trust," a mint mark, and "Quarter Dollar". T

Reverse: Two kivas are shown near the north wall of the Chetro Keti Complex and the north wall of Chaco Canyon.

You may be wondering what those two round structures are on this quarter. They're called "kivas," and they're a part of American history that not many people know a lot about.

Kivas are large stone buildings, often circular and usually built underground, from hundreds of years ago. You can find many kivas and great houses with square rooms at the Chaco Culture National Historical Park in New Mexico...and two on this quarter.

What were kivas used for? It's hard to know for sure. There are no written records and the peoples who used them moved away long ago. But facts like the large size of the kivas tell us that people gathered there in groups, maybe from nearby houses, maybe from villages far away.

Because these buildings are so old, they usually are found in ruin. They may be buried under sand because their roofs (if they had any) decayed and caved in.

To study the Chaco ruins, archaeologists have excavated (dug out) some of the kivas at Chaco Canyon. They have been surprised to find huge buildings with hundreds of rooms, often aligned with the sun and moon to track time.

So some buildings acted as big stone calendars!

A thousand years ago, Chaco Canyon must have been a busy place. The ruins there tell us that, in spite of the area's heat and dryness, it was once the center of culture and trading for Southwestern peoples like the Navajo.

There's lots more to discover at Chaco...like petroglyphs (rock carvings) and pictographs (wall paintings)! Read more on the [Chaco Culture National Historical Park](#) quarter page, where you can download a picture to color too!
