Drawings (Junior and Adult), General Business and a Short Program. We
have a Live Auction (must be a member to enter items in the auction & limit of
5 items per meeting) that begins at 7 p.m. YNs have their own
meeting during the auction. We like to dismiss before 8:45 pm if at all
possible.

EDITOR'S CORNER

In the middle of putting this month's newsletter together, I took a break. A break that I spent sharing the limited knowledge I have about coin collecting with 23 homeschoolers at our local library. I wasn't sure what to expect when my high school math teacher (now a librarian) asked me to do this. And how lucky was it that this fell during NATIONAL COIN WEEK?

Our club is still in transition. We have a fairly new slate of officers. We still need someone to take over our secretary's position. And we desperately need someone to take over the YN Advisor position. Can you help us out? If you can't take a position, can you help us with ideas? We need ideas on which way to direct the club. Reach out to a board member if you have ideas.

Until our next meeting, stay dry, safe and healthy.

2021 American Innovation Dollar - North Carolina

This dollar coin was the twelfth regular issue of the North Carolina American Innovation Dollar series. The coin honors the first public university in the U.S., the University of North Carolina at Chapel Hill.

The Chapel Hill University of North Carolina is a public research university located in Chapel Hill, North Carolina (UNC, UNC-Chapel Hill, or simply Carolina). North Carolina State University is an example of a public Ivy League school that offers an academic experience similar to Ivy League schools. It was chartered in 1789 and first enrolled students in 1795, making it one of the oldest public universities in the U.S. In addition, the University of North Carolina at Chapel Hill was the only 18th Century university that held classes and graduated students.

North Carolina's first public higher education institution was founded on February 12, 1795. With the admission of African-American graduate students in 1951, the University of North Carolina became co-educational under president Kemp Plummer Battle. Lineberger Comprehensive Cancer Center was established in 1952 as a hospital for research and treatment. It is one of only 51 Comprehensive Cancer Centers designated by the National Cancer Institute.

American Innovation Dollar Characteristics: With a lamp of knowledge atop three textbooks, the reverse design shows the stack of books. Located on the spine of the middle book is the word "First Public University" along with the terms "United States of America" and "North Carolina." Sculpted by Joseph Menna, the reverse was designed by Ronald D. Sanders.
