Editor's Corner

Great news everyone! We WILL BE MEETING IN APRIL! We have a lot to cover in our meeting: By-law changes, elections, YN Auction and the normal adult auction.

Hard to believe March is over and April is right around the corner. Crazy it is time for Easter already! April means plans are on the way in our house for a birthday. This year it is a big one for my offspring— the big 21 on the 13th! I'm really not sure where the years went.

So grab your masks and items to sell and plan to join us April 6th at 6 pm. There will be no food at the meeting. And remember you will need to have your temperature taken as you enter the meeting room.

Hope to see you soon.

Acadia National Park Quarter

The Acadia National Park quarter is the 13th design in the America the Beautiful Quarters® Program. Early 20th-century residents of Mount Desert Island saw the need to guard the island's awesome beauty by setting land aside as a national park.

Acadia National Park, established in 1916, became the first national park east of the Mississippi River. It is also the first national park created from land that was donated for that purpose.

The park is home to the tallest mountain on the U.S. Atlantic Coast. Visitors to Acadia can enjoy hiking over granite peaks, biking on historic carriage roads, and viewing the spectacular scenery.

Coin Description

Reverse

Features the Bass Harbor Head Lighthouse and Acadia's rough Atlantic coastline. The coastline, the lighthouse, the pine trees, and the ocean in the design represent some of the major features of Acadia National Park.

Obverse

Features the portrait of George Washington by John Flanagan, used on the quarter-dollar coin since 1932.
