American Innovation \$1 Coin - Virginia

The American Innovation \$1 Coin representing Virginia recognizes the Chesapeake Bay Bridge-Tunnel. Opened in 1964, the Chesapeake Bay Bridge-Tunnel connects Southeastern Virginia to the entire Delmarva Peninsula.

Spanning more than 17 miles, the bridge tunnel complex consists of 12 miles of low-level trestle, two one-mile-long tunnels, two bridges, two miles of causeway, and four man-made islands. The unique structure is considered the world's largest bridge-tunnel complex and was designated one of seven engineering wonders of the modern world.

The obverse features a dramatic representation of the Statue of Liberty in profile. The obverse also includes a privy mark of a stylized gear, representing industry and innovation.

The reverse depicts a view of the Chesapeake Bay Tunnel as a cross section cut away, illustrating the ingenuity involved in constructing it.
